

## Galvanized Steel Container Capacity: 2400/3200 Liters

### Body:

- Manufactured from high quality deep pressed sheet steel, of appropriate design, to ensure **stability** and **resistance** to mechanical stresses.
- Hot deep galvanized for maximum protection against corrosion.
- Conical shape for **ease** of discharge.
- Emptied by a single operative, side loading refuse collection vehicle.
- Vandal and fire **resistance**.

### Lid:

- Symmetrical bilateral lid.
- Accessible from front, or rear of the container.
- User friendly, due to wide lid opening.
- Light lids, made from aluminum and dampened by gas springs, for extra safety.
- Lids available with bottle/can or paper apertures.
- Lid-in-Lid option.

### Optional:

- Electrostatically powder coated for corporate identification and **aesthetics**.
- **Pedal opening** for safe and ease of waste disposal.

*The container is certified according to EN 12574 1/2/3 and tested, from an accredited laboratory.*
