

Hot Dip Galvanized Steel Container, with flat lid. Capacity: 1100 Liters Type: MSE 1100

Body:

- Manufactured from high quality (DC01) deep pressed steel, in three (3) main parts and of appropriate design, to ensure stability and resistance to mechanical stresses.
- Hot dip galvanized, for maximum protection against corrosion.
- Conical shape for ease of discharge.
- Fitted with enough handles, to ensure safe and easy movement.
- Robust hinges, that can also be used to maneuver the container.
- Vandal and fire resistant.

Range of lid options:

- Injection moulded, HDPE plastic lid, UV stabilized.
- Injection moulded, HDPE plastic lid-in-lid, UV stabilized.
- Double-walled, Roto-moulded, LDPE plastic lid, UV stabilized.
- Double-walled, Roto-moulded, LDPE plastic lid-in-lid, UV stabilized.
- Light weight pre-galvanized metal lid.

Optionally:

- Heavy duty pedal, for lid opening.
- Embossed Logo.
- Electrostatically powder coated, for corporate identification and aesthetics.

The containers are certified according to EN 840-2/5/6: 2020, RAL-GZ 951 and tested from an accredited laboratory.
